Climate Change and Justice

On the Road to Copenhagen

with contributions by Arne Jungjohann, Peter Burnell, Tilman Santarius a.o.

Berlin, November 2009

The Greenhouse Development Rights Framework: The Right to Development in a Climate Constrained World

A report by Paul Baer, Tom Athanasiou, Sivan Kartha and Eric Kemp-Benedict. Published by the Heinrich Böll Foundation, Christian Aid, EcoEquity and the Stockholm Environment Institute
Revised second edition! Berlin, Nov. 2008, 112 p., photos

Climate Change Violates Human Rights

By Theodor Rathgeber

Edited by the Heinrich Böll Foundation, Berlin, Nov. 2009, 40 p.

Climate Change and the Right to Food

A comprehensive study by the Human Rights Institute of the Columbia Law School and Olivier De Schutter
Edited by the Heinrich Böll Foundation
Berlin, November 2009, 160 pages, boxes a. charts

Climate and Trade – Why Climate Change Calls for Fundamental Reforms in World Trade Policies

A Study by Tilman Santarius. Published by the Heinrich Böll Foundation and Forum Environment & Development. Berlin 2009, 46 p.

Gender and Climate Finance:

Double Mainstreaming for Sustainable Development

By Liane Schalatek

Published by the Heinrich Böll Foundation North

America, May 2009, 30 pages

Web Dossier: COP 15 – On the road to Copenhagen

At the UN climate conference in Copenhagen from December 7 to 18, a new global climate agreement must be reached as an important step toward a new global climate governance under the UN. With this web dossier the Heinrich Böll Foundation provides its latest international publications and a wider range of background information on the ongoing UN climate negotiations «On the Road to Copenhagen.»

Blog: www.klima-der-gerechtigkeit.de (www.climateequity.org)

The blog offers sources for background information and current commentary on national as well as international climate policy decisions.

www.climatefundsupdate.org

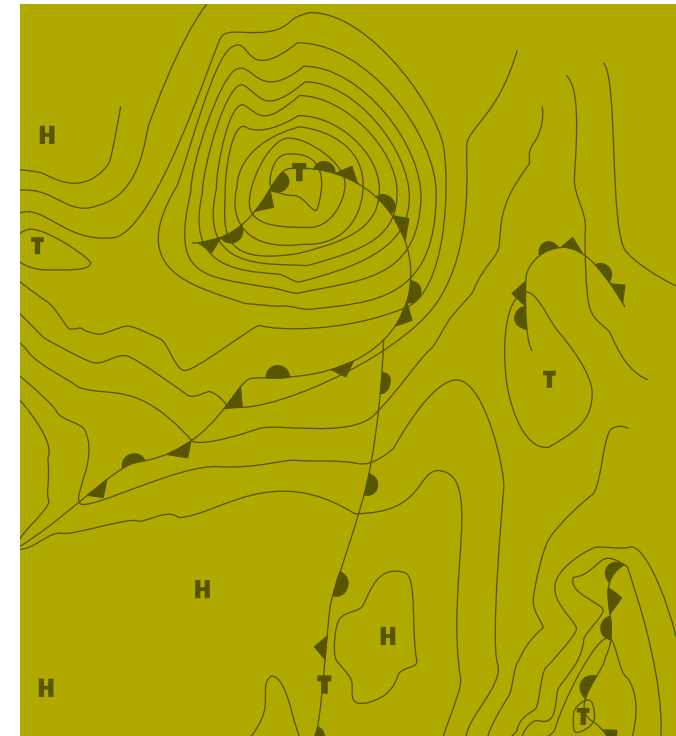

Climate Funds Update provides information on the growing number of international funding initiatives designed to help developing countries address the challenges of climate change. The funds will be tracked in the lead-up to the UNFCCC Conference of the Parties (COP) meeting in Copenhagen. Sponsored by the Heinrich Böll Foundation and ODI.

COP 15 Side Event

17 December, Thursday

11 am – 12:30 pm (COP 15 Side Event, Bella Center)

Mitigating Climate Change with Renewable Energy, Efficiency, and a Copenhagen Agreement

IPCC authors and other experts discuss how renewables and efficiency in concert can reduce emissions at modest cost in the near-term and how the Copenhagen agreement can accelerate transition to a low-carbon economy.

Organised by the Heinrich Böll Foundation, Worldwatch Institute, GEI, TERI, Germanwatch

Workshops at Klimaforum09

10 December, Thursday

10 am – 12 pm (Workshop, Klimaforum09, Venue 4)

International Cooperation for Renewable Energy – in Europe and in the South

In order to increase the share of renewable energy as quickly as possible and realise the long term vision of generating the electricity demand completely from renewable energy sources, international cooperation and appropriate governance structures are necessary. We will discuss two examples that aim at putting this into practice – the concept of a European Community for Renewable Energy and the Desertec project.

Organised by the Heinrich Böll Foundation, Desertec Foundation, Green European Foundation, Nous Horizons

Speakers: Reinhard Loske (Senator for Environment, Construction, Transport and Europe, Senate of Bremen), Michael Schreyer (former EU-commissioner); Oliver Steinmetz (Desertec Foundation), Wael Hmaidan (IndyACT)

Facilitation: Bastian Hermisson (Heinrich Böll Foundation, Germany)
Contact: Frederik Lottje, Heinrich Böll Foundation, Germany
lottje@boell.de

14 December, Monday

1 – 3 pm (Workshop, Klimaforum09, Venue A)

Energy Use and Climate Change in India

The event intends to compare GDR of SEI & Heinrich Böll foundation, Contraction and Convection of Global Commons Institute, Budget Approach of WBGU (German Advisory Council), Per capita Emission Rights Approach of CSE in order to find equalities in the different concepts and convergences.

Out of the comparison the purpose is to suggest crucial factors and criteria of a fair and equitable future climate regime. Speakers: Prof. Hans-Joachim Schellnhuber (Potsdam Institute for Climate Impact Research), Sivan Karta (Stockholm Environment Institute), Sunita Narain (Center for Science and Environment, India), Facilitation: Ambuj Sagar

In co-operation with Center for Science and Environment, India

Contact: Sanjay Vashist, Heinrich Böll Foundation India, New Delhi, sanjay.vashist@hbfasia.org

15 December, Tuesday

10 am – 12 pm (Workshop, Klimaforum09, Venue 2)

A Critical View about REDD in Amazonia: Controversies on Market Based Solutions

The «Belem Letter», a document signed by a coalition of Brazilian social and environmental movements and civil society organizations, calls on the Government of Brazil to reject REDD as a carbon market-based mechanism compensating emissions from Northern countries. The critical voices from Brazil refuse a possible inclusion of incentives to monocultures as reforestation or the promotion of industrial logging under the banner of Sustainable Forest Management. The workshop provides a floor for different positions and voices from Amazonia.

In co-operation with Friends of the Earth Brasil, Rede Justiça Ambiental, Fase

Speakers: Camila Moreno (Friends of the Earth Brasil, Terra dos Direitos), Thomas Fatheuer (director, Heinrich Böll Foundation Brazil), Leticia Tura (FASE, Brazil)

Facilitation: Annette von Schönfeld (Heinrich Böll Foundation, Germany)

Contact: Annette von Schönfeld, Heinrich Böll Foundation, Germany, vonschoenfeld@boell.de

3 – 6 pm (Workshop, Klimaforum09, Venue 3)

A New Climate Finance Compact – How to Ensure International and Intra-societal Equity

A just climate agreement depends on the willingness of developed countries to provide compensatory finance to Southern countries in order to address adaptation and mitigation needs while safeguarding their right to sustainable development. This panel discusses principles, funding channels and how to ensure local accountability for the sources as well as equitable distribution of funds between countries and amongst vulnerable people within countries.

Organized by Heinrich Böll Foundation North America, Campagna per la Riforma della Banca Mondiale/Mani Tese, JS APMD, Oil Change International, SEEN/Institute for Policy Studies, Bretton Woods Project, Jubilee South, BankTrack and Friends of the Earth International

Speakers (tbc): Lidy Nacpil or Fabrina Furtado (Jubilee South), Nnimmo Bassey (Friends of the Earth International), Nohra

Padilla (Asociacion de Recicladores de Bogota, Columbia/GAIA), Steve Kretzmann (Oil Change International), Janet Redman (SEEN/Institute for Policy Studies), Facilitation: Liane Schalatek (Heinrich Böll Foundation North America)

Contact: Liane Schalatek, Heinrich Böll Foundation North America, liane@boell.org

16 December, Wednesday

1 – 4 pm (Workshop, Klimaforum09, Venue 4)

Climate Change in Southern Africa: Who Bears the Burden?

Southern Africa suffers from extreme climate variability and communities, with women at the forefront, have for centuries developed strategies to adapt to its impacts – strategies that could be learned from and replicated. The workshop presents the findings of the study «Gender and Climate Change in Southern Africa» focusing on gender differentiated vulnerability, impacts and responses to climate change in southern Africa. Four case studies were developed under the project in South Africa, Botswana, Mozambique and Namibia respectively. The comments received from the workshop will be used to revise the regional report and case studies before a final edition is printed in 2010.

Speakers: Kulthoum Omari (Botswana), Agnes Babugura (South Africa), Natasha Ribeiro (Mozambique), Margaret Angula (Namibia)
Facilitation: Sakhile Koketso (Heinrich Böll Foundation South Africa)

Contact: Sakhile Koketso, Heinrich Böll Foundation South Africa, sakhile@boell.org.za

17 December, Thursday

1 – 3 pm (Workshop, Klimaforum09, Venue 2)

Climate and Trade – Why Climate Change Calls for Fundamental Reforms in World Trade Policies

Can global warming be kept under the dangerous threshold of 2 °C if current trade flows and world trade policies remain as they are? Over 20 percent of all CO₂ emissions from industrial production arise from products that are internationally traded. In addition, there are the emissions arising from the transportation of these goods. What's more, debate is whether trade rules inhibit the transfer of climate-friendly technologies. Climate policy, it seems, will need to deal with world trade issues – if not in Copenhagen, then soon afterwards. This workshop discusses reforms in both climate and trade policy to tackle the problem.

Speakers: Sunita Narain (Centre for Science and Environment, India), Victor Menotti (International Forum on Globalization, USA), Walden Bello (Focus on the Global South, Thailand (tbc))

Facilitation: Tilman Santarius (Heinrich Böll Foundation, Germany)
Contact: Tilman Santarius, Heinrich Böll Foundation, Berlin, Germany, santarius@boell.de
